Sling Comfort

High wearing comfort

Actimove® Sling Comfort is an arm sling for a stable and supported forearm. It is easily adjustable and has a universal fit. It comes in a compact two-roll dispenser box featuring a useful measuring guide, which can enable a quick application for the patient.

- The 5.5cm wide sling offers comfort and reduces pressure on the neck
- The three length-way seams prevent the sling edges rolling, providing comfort during wear
- Aided by the hook and loop fastenings, one-handed, self-application is achievable
- A variety of application styles are available due to dispensing format
- Y-tab fastenings included in dispenser box

- Machine washable at 40°C
- Radiolucent
- Metal-free
- Latex-free

Indications:

- Fracture management such as clavicle, scapular, humeral, and greater tuberosity fractures
- Joint dislocations such as acromioclavicular and sternoclavicular dislocations and shoulder luxation
- Support while wearing a cast or splint
- Temporary arm stabilisation in emergency or paramedic care
