

Actimove[®]

Manus

Wrist Stabiliser

New universal size

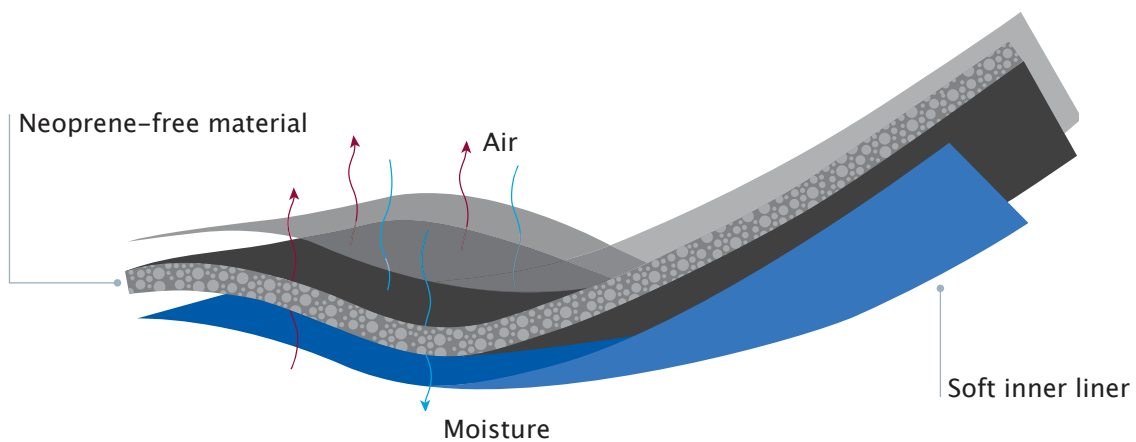

Manus

Wrist Stabiliser

Provides secure stabilisation of the wrist. The removable palmar stay allows application for both the left or right hand.

- Pain relief and healing are supported by stabilisation through the anatomically shaped stay
- Can be applied on left or right hand as stay is removable
- Great comfort from soft **Latex-free** material and contoured strap ends
- Can be worn on the **left or right** hand
- Hand washable

Indications:

- Tendonitis
- Sprains, strains
- Osteoarthritis
- Rheumatoid arthritis
- Post-operative care
- Post-traumatic care

Quick and easy to apply due to the slip-on sleeve and individually adjustable hook and loop fixings.
