# Mitella for Kids

## Colorful arm support

Actimove® Mitella for Kids is a paediatric arm support with a fun and colourful design. It provides stable support with a universal fit (left and right arm) and size, to the majority of smaller patients.

- The unique playful pattern will help to distract children from what can be a traumatic situation
- Providing comfort during wear, children are likely to comply with advised usage instructions
- O-ring to allow simple application and adjustment for an individual fit

- The gentle breathable pocket material provides protection for clothes and bandaging from dirt and moisture

- Machine washable at 40°C
- Radiolucent
- Metal-free
- Latex-free

### Indications:

- Post-operative support
- Fracture management such as clavicle, scapular, humeral, and greater tuberosity fractures
- Joint dislocations such as acromioclavicular and sternoclavicular dislocations and shoulder luxation
- Support for hemiplegic patients
- Minor instability of the shoulder
- Support while wearing a cast or splint
- Temporary arm stabilization in emergency or paramedic care
