

A DIFFICULT AIRWAY  
**DOESN'T HAVE  
TO BE A DIFFICULT  
INTUBATION.**

Introducing the McGRATH™ MAC blade size 1

**Medtronic**  
Further, Together

Pediatric airway complications are often unpredictable. And sometimes tracheal intubations (TI) require multiple attempts — especially if your patients are younger and have a history of difficult airway.<sup>1</sup> But you know that each additional attempt is associated with increased desaturation and TI-associated events (TIAEs).<sup>1</sup>

You can be better prepared for unexpected airway complications with the McGRATH™ MAC video laryngoscope, which offers:

- Confidence — familiar Macintosh technique; portrait display video
- Simplicity — single-button functionality; minute-by-minute battery indication
- Convenience — disposable, sterile blades; flexible cleaning options

Compared to traditional Macintosh laryngoscopy in pediatrics, the McGRATH™ MAC can improve intubation time — and first-attempt success rates.<sup>2</sup>

So your first attempt is your best. Every time.

## ORDERING INFORMATION

SKU NO.	DESCRIPTION	SIZE	QUANTITY
300-000-000	McGRATH™ MAC handle	N/A	1
350-072-000	McGRATH™ MAC blade size 1	1	50/box
350-017-000	McGRATH™ MAC blade size 2	2	50/box
350-005-000	McGRATH™ MAC blade size 3	3	50/box
X3-003-000	McGRATH™ MAC X blade size 3	3	10/box
350-013-000	McGRATH™ MAC blade size 4	4	50/box
340-000-000	250-minute battery pack	N/A	1

## TECHNICAL SPECIFICATIONS

### McGRATH™ MAC handle

Size	180 x 68 x 110 mm
Weight	200 g
Power	Proprietary 3.6V lithium battery pack (c. 250 minutes )
Light source	High-intensity LED
Display	2.5 in. LCD color display
Camera	CMOS
Materials	Durable medical-grade thermoplastics with reinforced structural alloy core. The device and packaging are latex free.
Warranty	36 months

### McGRATH™ MAC disposable blades

Material	Fog-free medical-grade optical polymer
Packaging	Packaged sterile for single use
