

Maxxcare® Pro Heel Boot

Offload heels to relieve pressure

The Maxxcare Pro Heel Boot provides excellent comfort and pressure reduction for patients with a 'high risk' of developing pressure ulcers to the vulnerable heel area. For patients with pressure damage, the Maxxcare Pro Heel Boot is an effective solution for wound healing, as its unique design allows for heel offloading. (NICE 2014) The 2014 European Pressure Ulcer Advisory Panel (EPUAP 2014) guidelines also recommend the practice of off loading pressure floating heels¹. The use of heel protection devices such as the Maxxcare Pro Heel Boot is a very effective intervention for preventing heel damage in patients and is a valuable resource in the treatment of existing pressure ulcers.

Reduction of Pressure and Shear at the heel

The reduction of pressure and shear at the heel is an important point of interest in clinical practice. The posterior prominence of the heel sustains intense pressure, even when a pressure redistribution surface is used (EPUAP 2014). Attributing factors for increased risk are positioning difficulties and lack of subcutaneous fat in this area.

Maxxcare Cushioning Technology

The Maxxcare Heelboot has been developed by Vicair® with an excellent reputation for their uniquely designed specialist cushions that offer superior pressure redistribution and optimal positioning. Using this innovative knowledge the new Maxxcare heel boot has been developed from a durable specialist low friction material on the exterior with a soft and smooth interior. Four removable air tubes form a comfortable cushioning effect around the foot for complete heel protection.

Features & Benefits

- Light and Comfortable fit
- Smooth fabric provides minimum friction on the patient's skin
- Effective healing aid for existing heel pressure ulcer
- Air capsules ensure effective pressure redistribution to the heel area
- Smooth fabric provides minimum friction on the patient's skin
- Available in 2 sizes, STD and XL
- Adjustable Velcro straps for best individual fit
- Machine washable up to 60
