Infant Flow™ LP Nasal Mask

Designed for maximum therapeutic effectiveness and patient comfort. The flexible bellow allows the mask to find a natural position over the infant's nose, minimizing leaks to maintain a consistent nCPAP level. An assessment window enables visualization of the infant's nares and septum. The five masks are color coded for easy size identification. Individually packaged 10 per box.

Part #	Description
777002XS	Nasal Masks, Extra Small
777002S	Nasal Masks, Small
777002M	Nasal Masks, Medium
777002L	Nasal Masks, Large
777002XL	Nasal Masks, Extra Large

Infant Flow™ LP Nasal Prongs

Designed for maximum therapeutic effectiveness and patient comfort, the prongs have high-profile design to minimize skin contact and provide visual verification of proper placement. The gently flared prongs help to form an effective seal and minimize leaks. The five prongs are color coded for easy size identification. Individually packaged 10 nasal prongs per box.

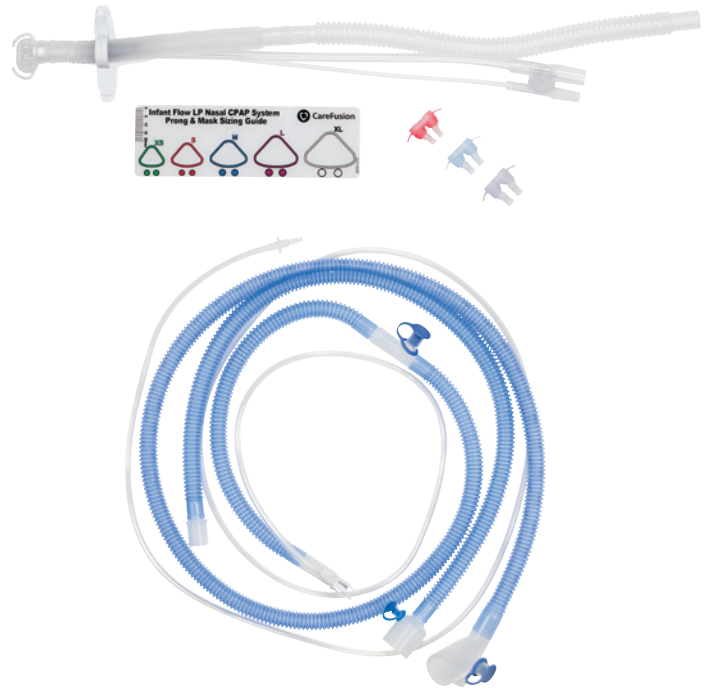

Part #	Description
777000XS	Nasal Prongs, Extra Small
777000S	Nasal Prongs, Small

777000L	Nasal Prongs, Large
777000XL	Nasal Prongs, Extra Large

Infant Flow™ LP nCPAP Generator/Circuit Kit

The new generator, with dual-jet variable flow technology, effectively reduces the imposed WOB to maintain a constant CPAP level. The lower driving pressure reduces pressure back up into the humidifiers auto-feed system. The combo kits include Infant Flow LP nCPAP Generator kits and single-limb, heated breathing circuits.
