# Take control with POCcelerator SE Data Management System

Simplify your point-of-care testing (POCT) with POCcelerator™ SE Data Management System, and improve outcomes with a scalable data-management system for the entire Siemens Healthineers POC portfolio.

With POCcelerator SE Data Management System, you can flexibly accommodate future needs by integrating all your Siemens Healthineers POC devices into a POC Ecosystem™ solution that can grow and change as you do. When you're ready, you can easily upgrade to POCcelerator, a fully open environment that allows you to connect more than 160 POCT devices from more than 40 manufacturers to your lab or hospital information systems.

Now you can manage dozens of sites, hundreds of devices, and thousands of operators with an integrated POCT environment that improves outcomes and workflow while enhancing care delivery across clinical pathways.

POCcelerator SE Data Management System: helping to transform delivery of care by providing a flexible, scalable solution to future-proof your healthcare system.
