Including:

Breakfast session, Capsule FAQ break-out
rooms and hands-on trade fair

For the latest
information about the
meeting and all things
gastro in Sheffield,
follow
@shefgastro on X!

Dear GI Friends,

We are really excited to invite you to this one-off meeting: **All things Endoscopy!**

This meeting is truly looking at the future of Endoscopy, and we are lucky to have the usual amazing array of internationally and nationally recognised speakers. We really hope you like the programme, so please take a moment to look at it.

We hope that what you will do is load your car up with your endoscopy team and bring them to Sheffield for the day!

Enjoy attending the Endoscopy Breakfast Club, seeing your friends and colleagues, but most of all the fun and buzz of being at the meeting in person. Aquilant have an endoscopic feast in store for you.

There is also an opportunity to get hands-on experience of new technology at the trade fare.

Finally, I would like to mention the Nurse Capsule Endoscopy break-out sessions.

Please remember, this meeting is for everyone: trainees, consultants, associate specialists, advanced medical practitioners, nurses from all walks of GI life (whether endoscopy, clinics, or GI ward background), or even junior doctors who fancy a career in gastroenterology or just an update – in fact anyone with an interest in gastroenterology!

CPD accreditation is available (4 points)

So please share this brochure with anyone in your department who you think may be interested.

The Aquilant Endoscopic Innovations Symposium is entirely free (even the parking!).

I hope to see you all very soon,

Best wishes,

David S Sanders

16.30 **Close of Meeting**

Join our Breakout Sessions:

Aquilant Innovations Capsule Nurse Providers

Where? In Great Central & Waverly Hall: 15 people and 4 chairs/moderators in each.

When? There will be 4 sessions: 10-11am, 11.30am-12.30pm, 13.30-14.30pm and 15.00-16.00pm. These mirror the timing of the main meeting, so you'll only miss an hour of lectures.

Who will be chairing the sessions? Victoria Thurston, Christian Bentley, Stacey Oliver (Barnsley), Ellie-May Bolsover, Elaine Ebro (Hertfordshire) & Emma McCulloch (Liverpool)

What will be discussed? The list of questions below will give you some idea of the topics we'll be talking about, so please read it so you can join in and ask your own questions if we've missed anything!

We hope the small groups will allow each room to have some interesting discussions, so that you leave knowing all of the ins and outs of using capsules.

Questions & Topics to be Discussed

- Which patients should have a capsule?
- What if the patient can't swallow the capsule?
- What if the patient can't take bowel prep?
- Which patients need a patency capsule?
- What happens if the capsule gets stuck in the oesophagus?
- What do you do if the patient complains of abdominal pain 2 weeks post capsule?
- What if the capsule does not pass into small bowel? (prokinetics)
- What if the capsule passes too quickly? What is deemed as too quick?
- What if the patency is not swallowed at right time?
- Unusual things patients do: e.g. swallowing silicone instead of patency, or cutting patency
- Is it safe to do capsule in pregnancy?
- Can a patient have a capsule with a pacemaker/ICD?
- What if the patient needs an MRI after capsule?
- What if the patient is so obese transmission is lost?
- Are capsules detected on airport scanning machines?
- Consent and training questions
- Troubleshooting equipment (change the belt first)
- Lactose
- Deep brain stimulator and deep nerve stimulation
