ComVi Pyloric/Duodenal Stent [Both Bare-Type]

for intrinsic and/or extrinsic malignant pyloric/duodenal stricture

Features

- **Triple layered construction:** Biocompatible PTFE membrane tube is held between inner and outer mesh
  - Unfixed cell structure enables stent to conform to tortuous anatomy
  - PTFE membrane prevents the risk of tissue invasion
  - Outer wire mesh prevents the risk of migration

- **Radiopaque marker:** 4 (four) at both covered part ends
